

JOB OPPORTUNITY NOTIFICATION

Position: Manager – Quality Assurance (QA)

Industry: Dairy & Food Processing

Employment Type: Full-Time

Location: Cuttack, Odisha

Experience Required: 8–12 Years

Salary: As per industry standards (Negotiable based on experience)

About the Company

NITUI AGRO INDIA is a leading dairy and food processing organization dedicated to delivering safe, nutritious, and high-quality dairy and value-added food products. With state-of-the-art manufacturing facilities and a strong focus on food safety, regulatory compliance, and innovation, we are committed to excellence at every stage of production.

We are seeking a highly competent and experienced professional to lead our Quality Assurance function as **Manager – QA**.

Role Overview

The Manager – Quality Assurance will be responsible for developing, implementing, and monitoring quality systems across procurement, processing, packaging, storage, and distribution. The role requires strong expertise in food safety standards, regulatory compliance, laboratory management, and team leadership within the dairy/food industry.

Key Responsibilities

1 Quality Management Systems (QMS)

- Develop, implement, and maintain Quality Management Systems (QMS).
- Ensure compliance with FSSAI, HACCP, ISO 22000, FSSC 22000, and other regulatory standards.
- Prepare and manage documentation, SOPs, and audit records.

2 Food Safety & Compliance

- Ensure adherence to food safety regulations and statutory requirements.
- Coordinate internal and external audits (FSSAI, ISO, third-party audits).

- Lead corrective and preventive actions (CAPA) initiatives.

3 Laboratory & Testing Oversight

- Supervise raw milk testing, in-process quality checks, and finished product analysis.
- Monitor microbiological, chemical, and physical testing protocols.
- Ensure calibration and validation of laboratory equipment.

4 Vendor & Procurement Quality Control

- Evaluate and approve raw material suppliers.
- Conduct vendor audits and quality assessments.
- Ensure quality compliance in milk procurement and raw ingredient sourcing.

5 Production Quality Monitoring

- Oversee in-process quality checks across all production lines.
- Monitor critical control points (CCPs) and quality parameters.
- Reduce product rejections, complaints, and quality deviations.

6 Consumer Complaint & Traceability Management

- Investigate customer complaints and initiate root cause analysis.
- Maintain product traceability systems.
- Implement corrective measures to prevent recurrence.

7 Team Leadership & Training

- Lead QA executives, lab technicians, and quality supervisors.
- Conduct training programs on food safety, hygiene, and GMP.
- Foster a culture of quality awareness across departments.

Qualifications & Experience

- Bachelor's Degree in Dairy Technology / Food Technology / Microbiology / Biotechnology / Chemistry.
- Master's Degree preferred.
- 8–12 years of experience in Quality Assurance within dairy or food processing.
- Minimum 3–5 years in a leadership role in QA/QC.

Required Skills & Competencies

- In-depth knowledge of FSSAI regulations and food safety standards.
- Strong understanding of HACCP, GMP, GHP, ISO 22000, FSSC 22000.
- Experience in laboratory management and microbiological testing.
- Strong analytical and problem-solving skills.
- Audit handling and regulatory liaison expertise.
- Excellent documentation and reporting skills.
- Leadership and team management capabilities.
- Proficiency in ERP systems and MS Office.

Key Performance Indicators (KPIs)

- Audit compliance score
- Reduction in quality deviations
- Customer complaint resolution rate
- CAPA effectiveness
- Product rejection rate
- Regulatory compliance adherence

Compensation & Benefits

- Competitive salary package
 - Performance-based incentives
 - Statutory benefits (PF, ESI, Gratuity)
 - Health insurance coverage
 - Professional development opportunities
 - Career advancement prospects
-
